

## ISCC – International Sustainability and Carbon Certification

### About this Summary Audit Report

All ISCC audits are conducted based on the applicable ISCC requirements as laid down in the ISCC System Documents. The relevant ISCC requirements are specified in audit procedures (checklists) that have to be used by auditors from the Certification Bodies (CBs) for ISCC audits. The completed audit procedures are available to the CB, the certified company and ISCC. Based on the audit procedures the CB prepares and submits this Summary Audit Report to ISCC and the certified company. The Summary Audit Report is published on the ISCC website together with further information on the ISCC certificate. The report is a tool to further enhance the transparency of the ISCC sustainability certification. It provides an overview on relevant aspects and results of the audit of a certified ISCC System User. Information and data in the report reflect the situation at the date of the audit. Only such activities, processes or materials relevant for the ISCC audit shall be included in this Summary Audit Report. The report shall not contain confidential or business sensitive information or data, including data about amounts or volumes of material, names and/or addresses of subcontractors or service providers, clients, customers, or others. Therefore, data on volumes of sustainable material is provided on a voluntary basis only. The Summary Audit Report has to be provided for all ISCC certified System User, and the publication on the ISCC Website is mandatory.

The layout of this report is provided by ISCC to enable a harmonised approach and to foster the comparability. The CB is responsible for correctness of the information provided.

## 1 About ISCC

ISCC – International Sustainability and Carbon Certification – is a solution provider for the implementation and certification of sustainable, traceable and deforestation-free supply chains. ISCC certification covers supply chains for all kinds of biomass (including agricultural and forest biomass), biogenic waste and residues, non-biological renewable materials and recycled carbon-based materials. ISCC certification ensures conformity with strict requirements regarding ecological and social practices, greenhouse gas emissions savings and traceability of materials throughout the supply chain. ISCC certification is applicable for the bioeconomy and the circular economy anywhere in the world, in particular for food, feed, energy (fuels, electricity, heating and cooling) and industrial applications.

ISCC is an independent multi-stakeholder initiative that has been developed and is being continuously improved with the involvement of its stakeholders. The ISCC system is governed by the legally registered ISCC Association (ISCC e.V.). ISCC certifications are conducted by independent third-party Certification Bodies (CB) cooperating with ISCC.

## 2 Information on the Certification Body

Name of CB:	Control Union Poland Sp. z o.o.
Description and additional information:  (e.g. relevant recognitions or accreditations, authorities responsible for recognition, accreditation, surveillance and/ or monitoring)	Control Union is recognized as world leader in risk management and logistic solutions, serving clients around the world; using expertise and specialist knowledge in every continent across the globe. Control Union Poland Sp. z o.o. is a certification body for ISCC EU since 2017, amongst many more certification schemes for sustainability. It's also recognised by KOWR (Krajowy Osirodek Wsparcia Rolnictwa, ang. National Center for Agricultural Support) as certification body as BIO/JC/010/2015.
CB email:	iwarczyk@controlunion.com
CB website:	<a href="https://controlunion.pl/">https://controlunion.pl/</a>

## 3 System User and Audit Process

### 3.1 ISCC System User (Operational Site Registered for Certification)

Company name	REPSOL COMERCIAL DE PRODUCTOS PETROLIFEROS S.A			
Address	C/ MENDEZ ALVARO 44 - 28045			
Country	Spain			
Geo coordinates <sup>1</sup>	Latitude	4.039872527	Longitude	3683681488
Contact details of relevant department				
Date of the audit	20.03.2025			
Place of audit if different from address stated above (Only applicable for traders)	On-site			
Certification system(s) audited <sup>2</sup>	ISCC EU <input checked="" type="checkbox"/>	ISCC PLUS <input checked="" type="checkbox"/>	ISCC Japan FIT <input type="checkbox"/>	
Chain of custody option applied	Mass Balance <input checked="" type="checkbox"/>	Physical Segregation <input type="checkbox"/>	Identity preserved (hard IP) <input type="checkbox"/>	Controlled Blending (only applicable under ISCC PLUS) <input type="checkbox"/>
		Bulk Commodity (soft IP) <input type="checkbox"/>		
Year of first ISCC certification	2013			
Other sustainability certification system(s) used <sup>3</sup>	Yes <input type="checkbox"/>		No <input checked="" type="checkbox"/>	
Date of issuance of this Summary Audit Report	22.03.2025			

1. Information mandatory for individually certified farms and plantations

2. In their version applicable at the date of the audit (system documents are available at [www.iscc-system.org](http://www.iscc-system.org))

3. Please only list systems with comparable scopes. For ISCC EU in particular those systems which are recognised under RED II are relevant and national schemes like the Italian National Scheme, Dutch Double Counting etc. This also includes documentation requirements from countries to fulfil sustainable fuels mandates (e.g. documentation for the Norwegian biofuel legislation). For ISCC PLUS in addition traceability databases for biogas/ biomethane trading (e.g. Vertogas (NL), Green Gas (UK)), for wood-based feedstocks (e.g. PEFC, FSC) and other voluntary schemes for circular and/ or bio-based industrial applications like e.g. RSPO or EuCertPlast are relevant.

Scope certified	<input type="checkbox"/> Farm/Plantation	<input type="checkbox"/> Forest Sourcing Area	<input type="checkbox"/> First Gathering Point	<input type="checkbox"/> Central Office (Farms/ Plantation)
	<input type="checkbox"/> Central Office (Independent Smallholders)	<input type="checkbox"/> Central Office (Points of Origin)	<input type="checkbox"/> Point of Origin	<input checked="" type="checkbox"/> Collecting Point
	<input type="checkbox"/> Warehouse	<input type="checkbox"/> Logistic Centre	<input type="checkbox"/> Trader with storage	<input checked="" type="checkbox"/> Trader
	<input type="checkbox"/> MTBE Plant	<input type="checkbox"/> ETBE Plant	<input type="checkbox"/> Final Product Refinement (ISCC PLUS)	<input type="checkbox"/> Processing Unit: Please specify below
	Type(s) of Processing Unit:			
	Is the processing unit producing final Biofuels/bioliquids/biomass fuels?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	
	If yes, was the processing unit already in operation on or before 5 October 2015?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	
	Is the processing unit producing electricity, heating or cooling from biomass fuels?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	
If yes, was the processing unit already in operation on or before 1 January 2021?	Yes <input type="checkbox"/>	No <input type="checkbox"/>		
Voluntary Add-ons (if applicable)	<input checked="" type="checkbox"/> No add-ons applied	<input type="checkbox"/> Food Security Standard (FSS)	<input type="checkbox"/> EN 15343	<input type="checkbox"/> Low ILUC risk
	<input type="checkbox"/> GHG Emissions	<input type="checkbox"/> EU Deforestation Regulation (EUDR)	<input type="checkbox"/> Non-GMO for Food and Feed	<input type="checkbox"/> Non-GMO for Technical Markets

## 3.2 CB Audit Team

Name of lead auditor:	Esther Espina
Name(s) of further auditors of the team	n/a
Name of GHG expert <sup>4</sup>	n/a

4. Only relevant if individual GHG calculation is applied

## 3.3 Risk Assessment

Result of the risk assessment	<input checked="" type="checkbox"/> Regular		<input type="checkbox"/> Medium		<input type="checkbox"/> High	
Risk indicators taken into consideration for the risk assessment	trazability and mass balance control					
Tools and sources used to determine risk factor	Very good management system and mass balance control					
Risk level applied for traceability	<input checked="" type="checkbox"/> Regular		<input type="checkbox"/> Medium		<input type="checkbox"/> High	
Sampling applied during the audit	<input checked="" type="checkbox"/> Yes			<input type="checkbox"/> No		
Scope(s) audited based on a sample	<input type="checkbox"/> Smallholders, Farms/ Plantations	<input type="checkbox"/> Points of Origin	<input type="checkbox"/> Storage Facilities <sup>5</sup>	<input type="checkbox"/> Dependent Collecting Points	<input type="checkbox"/> Final Product Refinement (FPR) group certification <sup>6</sup>	
	<input checked="" type="checkbox"/> n.a.	<input checked="" type="checkbox"/> n.a.	<input checked="" type="checkbox"/> n.a.	<input checked="" type="checkbox"/> n.a.	<input checked="" type="checkbox"/> n.a.	
Risk level applied for sampling	<input type="checkbox"/> Regular <input type="checkbox"/> Medium <input type="checkbox"/> High	<input checked="" type="checkbox"/> Regular <input type="checkbox"/> Medium <input type="checkbox"/> High	<input type="checkbox"/> Regular <input type="checkbox"/> Medium <input type="checkbox"/> High	<input type="checkbox"/> Regular <input type="checkbox"/> Medium <input type="checkbox"/> High	<input type="checkbox"/> Regular <input type="checkbox"/> Medium <input type="checkbox"/> High	
Total number(s) of operations relevant for calculating the sample size	Smallholders: Farms or Plantations: Points of Origin:		Storage Facilities: Dependent Collecting Points: FPR group members:			
Number(s) of audits based on sampling	Smallholders: Farms or Plantations: Points of Origin:		Storage Facilities: Dependent Collecting Points: FPR group members:			

5. For ISCC EU: If certified collecting points and central offices for points of origin of waste and residues are using external storage facilities and/or dependent collecting points (only possible under the scope collecting point), the sampling of dependent collecting points and external storage facilities is not possible, i.e. all external sites have to be audited.

6. Only applicable for ISCC PLUS

## 3.4 Summary of Activities

Amount of sustainable input material (in mt)*	This information can be provided on a voluntary basis as this may be commercially sensitive information.)		
Raw materials with country of origin*	Spain; China; Malaysia; New Zealand; Australia - Used cooking oil (UCO) entirely of veg. origin, Spain - Used cooking oil (UCO) entirely or partly of animal origin, Spain; Portugal - Waste/residues from processing of vegetable or animal oil		
Sustainable output material*	01: Used cooking oil (UCO) entirely of veg. origin - not applicable; 02: Used cooking oil (UCO) entirely or partly of animal origin - not applicable; 03: Co-processed oil to be used for replacement of diesel - not applicable; 04: Co-processed oil to be used for replacement of jet fuel - not applicable; 05: HEFA - not applicable; 06: Bio-ETBE - not applicable; 07: Bio-MTBE - not applicable; 08: Biodiesel - not applicable;[.]		
Please indicate the type(s) of sustainable materials traded (applicable for the certification of traders only)	<input type="checkbox"/> Raw materials	<input type="checkbox"/> Intermediate products	<input checked="" type="checkbox"/> Final products
Type(s) of producers supplying sustainable biomass**	<input type="checkbox"/> Smallholders <sup>1</sup>	<input type="checkbox"/> Individual farms	<input type="checkbox"/> Plantations
Total number of producers supplying sustainable biomass**			
Total production area of all producers supplying sustainable biomass (in ha)**	<input type="checkbox"/> 1 – 500 <input type="checkbox"/> 500 – 5,000 <input type="checkbox"/> 5,000 – 20,000 <input type="checkbox"/> > 20,000	<input type="checkbox"/> 1 – 500 <input type="checkbox"/> 500 – 5,000 <input type="checkbox"/> 5,000 – 20,000 <input type="checkbox"/> > 20,000	<input type="checkbox"/> 1 – 500 <input type="checkbox"/> 500 – 5,000 <input type="checkbox"/> 5,000 – 20,000 <input type="checkbox"/> > 20,000
Countries of smallholders, farms and plantations covered by certification**			
Supplying Farm(s) controlled by European Cross Compliance**	Yes <input type="checkbox"/> No <input type="checkbox"/> Note: If supplying farms were controlled by European Cross Compliance (CC) only ISCC Principle 1 was verified at the audit. ISCC Principles 2 – 6 are covered by the Cross Compliance controls.		
Information on volumes supplied by biomass producers or points of origin (in mt per raw material)***	(To be provided on a voluntary basis as this may be commercially sensitive information. For agricultural producers of oil palm fresh fruit bunches this information is compulsory)		

<p>List of sites covered by the certification</p>	<p>Optional information for first gathering points, collecting points, points of origin (individually certified) and traders with storage: list of sites under the scope of certification (name and address)</p>			
<p>List of FPR activities</p>				
<p>List of outsourced FPR activities</p>				
<p>GHG option applied for outgoing sustainable material (Mandatory for ISCC EU and ISCC DE. Multiple options possible)</p>	<input type="checkbox"/> Total default value	<input checked="" type="checkbox"/> Disaggregated default value		
	<input type="checkbox"/> Actual value	<input type="checkbox"/> NUTS2 value or “NUTS2-equivalent” value <sup>2</sup>		
	<input checked="" type="checkbox"/> Voluntary add-on “GHG Emissions” was not applied (only relevant for ISCC PLUS)			
<p>GHG saving factors applied <sup>3</sup></p>	<input checked="" type="checkbox"/> None	<input type="checkbox"/> e <sub>sca</sub> <sup>3</sup>	<input type="checkbox"/> e <sub>ccs</sub> <sup>4</sup>	<input type="checkbox"/> e <sub>ccr</sub> <sup>5</sup>

\* Applicable for physical input and output. Not applicable for material which is only traded on a “paper” basis

\*\* Applicable for certification of First Gathering Points, Central Offices (farms/ plantations), Central Offices (independent smallholders) and individual certified farms/plantations

\*\*\* Applicable for certification of First Gathering Points, Central Offices and Collecting Points

<sup>1</sup> Smallholders are farmers growing a cash crop alongside other subsistence crops on areas usually smaller than 50 ha. The smallholding farm generally provides the main source of income for the family owning the land, and the family usually conducts most of the labour

<sup>2</sup> “NUTS2 or NUTS2-equivalent” values: To determine GHG emissions from cultivation the use of typical values that represent the average value in a specific area is also possible. Those typical values are often referred to as NUTS2 values. Those NUTS 2 or typical values have to be reported to the European Commission by Member States or third countries and can be used if the Commission recognizes them to be accurate

<sup>3</sup> e<sub>sca</sub>: Emissions savings from soil carbon accumulation via improved agricultural management can be applied for improved agricultural and manure management if animal manure is used as substrate for the production of biogas and biomethane. (see ISCC EU System Document 205 “GHG Emissions”) This information has to be explicitly stated in the Sustainability Declaration

<sup>4</sup> e<sub>ccs</sub>: Emissions savings from carbon capture and geological storage

<sup>5</sup> e<sub>ccr</sub>: Emissions savings from carbon capture and replacement

## 3.5 Summary of Audit Results

Audit results per chapter of the ISCC Audit Procedures:

Chapter	Number of detected major non-conformities (for main and sample audits)	Number of detected minor non-conformities (for main and sample audits)
Management System		
Traceability		
Chain of Custody		
GHG		
Farms / Plantations or Forest Sourcing Areas		
ISCC Principle 1	Violations of ISCC Principle 1 are critical non-conformities and cannot be subject to corrective measures	
ISCC Principle 2		
ISCC Principle 3		
ISCC Principle 4		
ISCC Principle 5		
ISCC Principle 6		
Point of Origin		
Implementation status of mandatory Corrective measures	<input type="checkbox"/> Corrected <input checked="" type="checkbox"/> Not corrected <b>Note: Under ISCC all non-conformities with mandatory requirements must be implemented before a certificate can be issued</b>	
Status of voluntary improvement measures	<input type="checkbox"/> Fully implemented	<input type="checkbox"/> Partially implemented
	<input checked="" type="checkbox"/> Not (yet) implemented	<input checked="" type="checkbox"/> No voluntary improvement measures defined
Remarks, observations of best practices and recommendations relevant for ISCC audit		
	(To be provided on a voluntary basis)
